THE UNIVERSITY OF ALBERTA STAFF BULLETIN

EDMONTON, ALBERTA

MAY 10, 1973

## JOHN E. BOWSTEAD 1894 - 1973

JOHN EDELESTON BOWSTEAD, Professor Emeritus of Animal Science, died last Thursday, May 3. He was 79.

Dr. Bowstead was born in Milwaukee and educated at the University of Wisconsin, where he received his PhD degree in animal nutrition and breeding in 1929. He joined the Department of Animal Science at this University

in 1921 and retired in 1959. His teaching program and research interests concerned the breeding, feeding, and management of dairy cattle and sheep. He conducted the pioneer studies in Canada on cobalt deficiency in rations for sheep, and on the use of urea as a protein substitute for dairy cattle.

Dr. Bowstead was a member of the Agricultural Institute of Canada and a life member of the Canadian Society of Animal Science.

## GENERAL FACULTIES COUNCIL

By FOLIO Staff

A meeting of General Faculties Council was held April 30, 1973.

After considerable discussion, General Faculties Council gave almost unanimous support to a motion expressing concern over the recent reorganization of the provincial Department of Advanced Education. The original motion had been placed before Council by E. J. ROSE, Chairman of the Department of English. The motion as passed stated:

"Whereas

—the reorganization of the Department of Advanced Education was carried out without prior consultation with the public or with the Board of Governors, General Faculties Council, the Senate, or the student body of this or any other university in Alberta;

—the document released by the Executive

Council of the Legislature does not acknowledge in any way the unique role of the universities in the post-secondary system;

—the proposed structure concentrates authority over universities in a central provincial department to an extreme extent and erodes the traditional principle of institutional autonomy;

—implementation of the proposal will locate decision-making at the Ministerial level without formal and direct participation by the universities;

be it resolved that the General Faculties Council of The University of Alberta call upon the Premier of Alberta and the Minister of Advanced Education to restore confidence in the government's educational policy by entering into serious discussions with the institutions concerned in order to preserve the traditional principle of institutional independence."

## REVISED UNIVERSITY RESEARCH POLICY

At the same meeting Council approved a revision to the University's research policy affecting the limitation on publication.

The revised policy is as follows:

"When a member of staff requests research funds from government, industry, foundations, business, or professional organizations, or is asked to use his professional skills on their behalf and the acceptance of such an undertaking means that the University is expected to provide facilities, space, equipment, or administrative assistance; or when the funds are used to support activities in which students or postdoctoral fellows are engaged as part of their educational experience, the University considers the activity to be part of the University's pattern of research.

"The University recognizes that one of the main purposes of University research is the discovery and dissemination of new knowledge. University research, therefore, which is pursued under conditions which restrict publication is not compatible with University policy, and any exception to this principle shall be subject to formal review procedures by the General Faculties Council Committee on Research.

"All research theses accepted in partial fulfilment of degree requirements shall be accessible in the University Library, unless the General Faculties Council shall have voted that a thesis should not be generally available."

Council also approved a recommendation that it "endorse a policy whereby all regulatory

authorities holding public hearings should make public all documentation relevant to the hearings and that this recommendation should be transmitted by the President to all appropriate levels of government."

## ADMISSION REQUIREMENTS

Council approved a motion from the Admission Requirements Committee that a 60 percent average in five appropriate Grade XII subjects continue to be required for admission to the general faculties and schools of the University, with the amendment that it would be at the discretion of individual faculties to exclude such subjects from the average as they see fit.

It was also agreed that studies be conducted into the effects of using the 60 percent requirement.

## PEOPLE

■ JEANETTE ROTHROCK has been appointed Acting Publications Officer from May 1, 1973, succeeding F. W. SAMIS who resigned from that position as of April 30.

■ GERALDINE FARMER, Professor of Secondary Education, delivered the keynote address at a seminar of the Edmonton chapter of the National Secretaries Association held at the Chateau Lacombe.

## SPEAKER ANNOUNCED FOR MEMORIAL LECTURE SERIES

This year's lecturer for the Edward Herbert Boomer Memorial Lecture Series, sponsored by the Department of Chemistry, will be HOWARD

V. MALMSTADT of the University of Illinois. Dr. Malmstadt, born in Wisconsin in 1922, received a BS degree in chemistry from the University of Wisconsin in 1943 as well as completing studies in naval radar electronics at

Princeton, MIT, and Bell Research Laboratories in the same year. From 1944 to 1946 he was a radar officer for a division of

destroyers in the Pacific.

He received an MS degree in 1948 and a PhD degree in Chemistry in 1950, both from the University of Wisconsin. He joined the faculty of the University of Illinois in 1951 and was promoted to full professor in 1961. He was a Guggenheim Fellow in 1960, the 1963 winner of the American Chemical Society award in Chemical Instrumentation and, in 1970, winner of the Eckman award in Education from the Instrumentation Society of America.

His major areas of research are in new spectroscopy methods and instrumentation; short-time phenomena in laser plumes, flames, and spark discharges; reaction-rate methods of analysis; and automation of scientific measurements.

The lecture topics with times and place will be found in "This Week and Next."

The annual lecture series is named in honor of Professor E. H. Boomer, who was associated with the Department of Chemistry from 1925 until his untimely death in 1945.

### SPECIAL LECTURE SERIES TO BE GIVEN

The Department of Physics is sponsoring a special lecture series on "The historical development of the interpretations of quantum mechanics" which will be delivered by MAX JAMMER of Bar-Ilan University, Ramat-Gan, Israel.

The series of 10 lectures will be given between May 22 and June 1. Each lecture will begin at 10:30 a.m. and will last from one to one-and-a-half hours. They will be held in Room V129 of the Physics Building, and all professors, post-doctoral fellows, and students are invited to attend.

The topics of the first four lectures will be announced in "This Week and Next" in next week's *FOLIO*.

### ASTRONOMERS MEET HERE

At the invitation of the Department of Physics, the Canadian Astronomical Society/Société Canadienne d'Astronomie will be holding its third annual meeting at The University of Alberta, May 10 to 12. Approximately 80 delegates and guests are expected. Scientific sessions are scheduled for Friday and Saturday in Room V129 of the Physics Building. An invited paper, "Observations of interstellar gas and dust with the Copernicus satellite" will be given by D. C. Morton of Princeton University Observatory, at 2 p.m., Friday, May 11.

### LADIES' SUMMER SPORTS

The Northern Alberta Women's Field Hockey Association would like to hear from women who are interested in playing this season. Beginners to advanced players will all be welcome and instruction will be provided.

Practices are held on Monday and Wednesday evenings at 6:30 p.m. in Confederation Park near Southgate.

The Summer Basketball League is also inviting new players to join. Those interested should join the League for a practice session at 7 p.m. on any Tuesday evening, starting May 15, in the gymnasium in the Education Building.

Further information on both sports may be obtained from KATHY BRODERICK, Faculty of Physical Education, telephone 432-3565 or 466-7104.

### SPRING SESSION RECREATION PROGRAM

*Fastball.* A fastball organization meeting will be held on Monday, May 14 at 7 p.m. in Room 120 Physical Education Building (east wing). Anyone interested in playing in the May-June League should attend.

There will be a fastball umpires' clinic on Monday, May 14 at 7 p.m. in Room E-120 Physical Education Building (east wing). Teams participating in the Fastball League are encouraged to provide at least one individual who might officiate games when they are not

playing. Umpires are paid.

*Tennis.* Tennis lessons will be given free to bona fide Spring Session students, on Wednesdays from 5 to 8 p.m. A limited number of raquets and balls are available from the equipment rooms. However, participants are encouraged to supply their own equipment. The first class will meet on May 16 for organizational purposes.

*Raquetball.* A clinic will be held for advanced players on Tuesday, May 15 from 7 to 10 p.m. in the raquetball courts, Physical Education Building (east wing).

Further activities will be publicized at a later date.

### BOTANIC GARDEN OPENS FOR THE SUMMER

The Department of Botany's Botanic Garden and Field Laboratory is now open to the public every weekend between 1 and 6 p.m. It may be reached by driving six miles west on Highway 16 and then nine miles south on Highway 60. The garden is situated just north of Devon.

Each week from now until September *FOLIO* will carry a notice in the Exhibitions section of "This Week and Next" describing the bulbous and herbaceous plants which should normally be in flower during the following weekend. Also on display will be annuals, annual grasses, and a collection of "everlasting" flowers suitable for use in winter bouquets. Trees and shrubs (including evergreens) are established or are on trial in the garden, and over 2,500 species and cultivars are named.

### COMEX 6 (COMMONWEALTH EXPEDITION)

Comex Canada is organizing a Canadian contingent to accompany Comex 6, the last of the large expeditions planned by Comex (Commonwealth Expedition) which is headquartered in Britain. Comex 6 will leave in August this year for a tour commencing in Britain and extending, mostly overland, via India, hopefully as far as Singapore. The expedition will return in November.

The Commonwealth Expedition was founded with the aim of promoting greater understanding among participating countries and those visited en route. His Royal Highness PRINCE PHILIP is patron.

Applicants should have a genuine interest in the study of other cultures, and appreciate them; be willing to assist in expedition tasks (driving, cooking, etc.); and be in excellent health. Applications would be welcomed from doctors, nurses, teachers, members of police forces, final year students, and others, regardless of age.

Those interested should write to JOHN STEVENS, Co-ordinator, Comex Canada, 415 University Street, E., Windsor, Ontario, N9A 2Z3. A stamped addressed envelope should be enclosed.

## The University of Alberta

will appoint a

**PRESIDENT**

with effect from July 1, 1974

The University of Alberta is a publicly supported institution established in 1906. The current full-time enrolment is approximately 18,000. The operating budget in 1972-73 is \$70,000,000.

The President has the general supervision over and direction of the operation of the University, including the academic work and the business affairs of the University, and such other powers and duties as may be assigned to him by the Board of Governors.

In the performance of these functions the President is assisted by a Vice-President (Academic), a Vice-President (Finance and Administration), and a Vice-President (Planning and Development).

The salary and terms of office of the President are negotiable.

Written applications or nominations for this position, accompanied by a résumé of qualifications, will be received until a selection is made, and should be sent to JOHN NICOL, Secretary to the Governors, The University of Alberta, Edmonton, Alberta.
